A FATHER'S DESPAIR.

A Sad Affliction of a Four Years' Old Ohlid.

Tuesday morning, August 18th, the editor of the Journal, in company with G. W. Taylor, the stableman of Linden, Texas, drove out saven miles northwest of Linden to the residence of Mr. John Miller. We were received and well entertained by Mr. and Mrs. Miller. Their son, Builced J. Miller, at about four years oil, became pale and weak and nothing seemed to do him any good. He continued in this condition until he was about twelve years old, at times eating too much for one or two meals and then eating but little for weeks afterward. At twelve years of age his fees and legs began to swell, and developed into what his physicians said was a bad case. If dropsy.

Mr. Miller had two good physicians to treat him; first Dr. A. J. Oliver, of Linden, and then Dr. J. P. Mills, of Aimira, Texas. They both, after making a trial, gave up the case. They could not benefit the patient.

Mr. Miller then tried a number of patent medicines, without any good result. He had spent much mobey and his son Buford appeared to have no blood, no appetite, and was so weak that he could not walk a hundred yards without stopping to rest. Mr. Miller had given up in despair when one day a neighbor. Rev. S. G. Echals, who lives near Lin. Im. An Airled him to try Pink Pille.

Mr. Miller said he had no hope, and did not want to make the trial, but his neighbor insisted. The next question was where could he get the pills. He went to Jefferson and found that I for the patents of the could he get the pills. From the Citizens' Journal, Atlanta, Terras

Mr. Crow was an old neighbor and friend and persuaded him to give the pills a thorough trial, promising that if he would take three boxes and Buferd received no benefit from them he would charge nothing. Mr. Miller took three boxes of Fink Pills home with him, and says before Buford had taken one box there was a wonderful improvement. This was about eighteen months ago, To-day Buford Miller is a stout, hearty young man about nineteen years old.

We mot several of his schoolmates at Linden who state there has been a wonderful change in Baford Miller. He is well known by the people of Linden.

His mother, Aira Miller, was also afflicted with dropsy about seven years, suffering much in the spring of the year. After seeing that Pink Pills were benefiting her son she concluded to try them for herself. This was about a year ago, and she remarked that if it had not been for Pink Pills she did not know what would have become of her. She had no symptoms of dropsy the past spring. She said too much can not be said in praise of Pink Pills.

Mr. Miller referred us to J. F. Stovealt, the druggist in Linden, Eb. Francier, merchant, and many others who are well acquainted with his family and know the facts. Dr. Williams' Pink Pills for Pale People are not a patent medicine in the sense that name implies. They were first compounded as a prescription and used as such in general practice by an eminent physician. So great was their efficacy that it was deemed wise to place them within the reach of all. They are now manufactured by the Dr. Williams' Medicine Company, Schenectady, N.Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous initiations sold in this shape) at 50 cents a box or six boxes for \$2.5°, "ad may be had of all druggists or direct by mail from Dr. Williams' Medicine Company.

"Intraas," he said, severely, to the new woman, "did you mail that letter I gave you this morning!" And then she put her hund in the inside pocket of her overcoat, started, got red in the face and almost wished that she had never been emane-

"I near life without a cent in my pocket," said the purse-proud man to an acquantance. "I din teven have a pocket," replied the latter, meekly.

Christ, who took ills text from a flock of birds flying overhead, saying: "Behold the fowls of the air," and from the flowers in the valley, saying: "Consider the lilies of the field," and from the clucking of a barnyard fowl, "As a hen gathereth her chickens under her wing," and from a crystal of salt picked up by the roadaide, saying: "Salt is good," will grant us a blessing if, instead of taking a text from the Bible, I take for my text this letter from Cincinnati, which is only one of many letters which I have received from young women in New York, New Orleans, San Francisco, London, Edin-burgh and from the ends of the earth. all luplying that having some me ago preached the sermon on "Advice to Young Men," I could not, without neglect of duty, refuse to preach a sermon on "Advice to Young Women."
It is the more important that the pulpit be heard on this subject at this time when we are having such an illimitable discussion about what is called the "New Woman," as though some new creature of God had arrived on earth, or were about to arrive. One theory is that she will be an athlete and boxing-glove and foot-ball and pugilistle encounter will characterher. Another theory is that she will superintend ballot-boxes, ait in congressional hall, and through improved politics bring the millen nium by the evil she will extir-pate and the goodshe will install. Another theory is that she will adopt masculine attire and make sacred a vulgarianism positively horrifle. Now good digestion wait on appetite And health on both. Advice the third: Appreciate your mother while you have her. It is the almost universal testimony of young women who have lost mothers, that they did not realize what she was to them until after her exit from this life. Indeed, mother is in the appreciation of many a young lady a hindrance. The maternal inspec-tion is often considered an obstacle. Mother has many notions about that which is proper and that which is improper. It is astounding how much more many girls know at eighteen than their mothers at forty-five. With what an elaborate argument, perhaps maternal forehead is rather an indicaanyhow. They are in the way, and postage marks of letters, and asking: "Who is that Mary D.?" and "where
